BOY SUICIDES.

Musicous, Mich., April 28.—One of most deliberate suicides in the history of Musicous was discovered this afternoon. Frederick Sanarau, a lad of 15 years, living with his parents just south of the city, was found hanging in a slaughter house. He had taken a big rope, fastened it to a beam, threw it over an adjoining beam and then brought it up in under, fastened it around his seck with a big noose and jumped off a ladder. He died from strangulation. No motive for the deed is known.

New Phase of the Row.

Owcase, Mich., April 28.—James Orburn, a least business man, has made some statements which, if true, explain all of the Ann Arbor line's difficulties. He says that while he was returning from New York some time ago, a prominent official of the road told him that the employes would be forced to strike. This would also force down the price of the stock, and some manipulators would make themselves rich by the crash. A well-pusted striker thinks the company is simply trying to make \$65,000 to pay for their new ferryboats at Frankfort.

Patton One of 'Em. Larsino, Mich., April 28.—John Patton, Jr., of Grand Rapids, Bethune Duffield of Detroit, John H. Howry of Saginaw, E. S. Lee of Flint, Frank R. Chassof Heiding, and John R. Bennett of Musikegon, have been appointed a board of inspectors of the Michigan Military academy.

Hobbed a Farmer.

Capatage, Mich., April 28.—Burglare relieved J. H. Faisted, a Tustin farmer, of \$20.30 in cash and \$2,050 in benking paper. They will be unable to collect anything on the latter.

Colonel Standish Dead.

Nawayoo, Mich., April 28.—Cot. J. H. Standish, one of the oldest inhabitants of Newaygo, died this morning. He was an old soldier and a prominent lawyer.

cabinet. It was had and the cabinet was asked if it knew anything about a new constitution the queen intended to promulgate that day. They had only heard rumors. They were then asked to make their position known and they replied that they would not favor it. Then Minister Stevens spoke up, so Colbura alleges, and asked if the queen had signed the lottery bill, and when informed that she had he flew in a rage and said: "Had I not been away on a cruise I never should have permitted it."

Subsequently I. A. Thurston, chairman of the commission to the United States, asked for a conference with Colburn, and said that a number of citizens desired to depose the queen. Colburn called together his colleagues and agreed to deny the request of the Thurston clique, and the next day they were deposed. In a later interview with Stavena Colburn was told by him that he would not assist the Colburn party. The ex-minister insists that the United States put things in the Hawsian islands as they were because its representatives here did all the mischief. Distribution of products to consumers fall short of expectation. Monetary uncertainties and failures make people anxious. Wheat seeding has been greatly retarded by rains and much cotton has been killed and signs of industrial depression affect the purchases of millions. The dry goods business is plainly taking in sail, buying from hand to mouth and waiting for events, so that this is called the dullest April for years. Sales of wool are greatly reduced and some grades of ginghams, cambries and other cotton goods are lower, with stocks accumulating. hams, cambries and other cotton goods are lower, with stocks accumulating. In leather the sales have grown lighter for weeks and stocks are growing, though the boot and shoe shops are still working on old orders. The failure of the Pennsylvania Steel company causes much depression and makes it harder for other iron concerns to obtain accommodations, especially in the rall business, because it is doubted whether receivers can renew the compact of receivers can renew the compact of makers, which expires July 1. Trade in makers, which expires July 1. Trade in pig-iron is waiting, and consumption of manufactured products does not encourage hope of better prices, though in plates there is more inquiry from ship yards, and in bar from car-builders. Structural iron is h demand throughout the country, but at low prices. Copper has declined, contracts with consumers at 11 cents for lake being reported. Tin is weaker at 20.6 cents, and lead at 4.05 cents, and agents have reduced western prices of coal 15 cents. Removal of anxieties about money has strengthened stocks. Railroad earnings continue large, and the proposed reorganization of the Reading causes quite a boom, while some buying from Europe has been reported. Cotton is \$\frac{1}{2}c\$ lower on sales of 300 bales in spite of reported injuries, the pressure of heavy stocks being feit as money tightens. WAS EGAN INSULTED?

Washington, April 28.—Acting Secretary of State Adec says the department has received no confirmation of the report that Minister Egas had been given his passport by the Chilean government. The story was that Egan had refused to transact any business with the Chilean minister of foreign affairs, alleging that the latter had insulted him, and that the minister, by way of retaination, had given Egan his passport. Secretary Adec says he would not be surprised if Egan had asked for his passport, as it was understood he was about ready to return home. Mr. Adec admits, however, that the incident may have occurred, though the state department has not been apprised of it. In their feeling of resentment against Minister Egan the Chileans may have attempted to humiliste him.

WILL NOT ISSUE BONDS. New York Will Furnish Gold When It

NEW YORK, April 28.—It is learned on good authority that at last evening's meeting of Secretary Carlisie with the New York bank presidents he was assured of their willingness to come to the assistance of the government whenever, in his opinion, more gold was needed by the treasury. The terms on which the gold is to be furnished is left open. It was a leo agreed by all present that the uneasiness based upon the intrenchment upon the \$100,000,000 gold reserve fund was only sentimental, and that at this time there was no necessity for a bond issue or a gold loan to the treasury. The meeting was a most cordial ury. The meeting was a most cordial one and all agreed that the actual meeting of the secretary with the bankers was most satisfactory.

The Standard Oil Forces the Manhattan Out of Business. Findlay, Ohio, April 28.—It came to light today that the Standard Oil com-pany has, after a year of careful man-euvering, secured entire control of its chief living rival, the Manhattan Oil company, and the latter has become entirely merged. The Manhattan has been for four years the chief and probably the only rival of the Standard in the Ohio field. The company was or-ganized by the same New York million-aires who sold the Lima Oil company to the monopoly, with a capital stock of \$2,000,000, and within the past six months has acquired properities worth \$1,000,000. The Manhattan forced the \$1,000,000. The Manhattan forced the Standard to raise the price of Ohio oil from 15 cents per barrel to 48 cents by paying an advance of 2 cents. It built immense refineries at Townsend, Walker and other points throughout the state and made itself a dangerous rival. To do this it has sunk millions and has died a hard death. During the past year the Manhattan has made heavy contracts to supply oil and upon refining this the Standard began buying oil at advanced prices to squeeze buying oil at advanced prices to squeeze the Manhattan out. The price rose and the Manhattan is said to have lost millions on its January contracts. It reached its limit of opposition and resource and gave up. This is the largest oil deal ever made in the state and looks bad for the producers, as oil will drop to a low figure unless all indications fail. The property transferred by the deal is valued at

The Atchison Makes a Big Slash in World's Fair Rates.

Corcago, April 28.-The Atchison will, tomorrow, make a nominal rate of 81 between Denver and Pueblo and all intermediate points. It will also make e same rate between any of these sints. In brief, the rate in Colorado is si between almost any two points. It will also make a round-trip rate, Kansas City to Chicago and return of \$13.80. This sweeping reduction is one of the results of the reduced rates made of late by the Derver & Rio Grande. The \$13.80 round trip rate from Kansas City is a reduction of \$6.20 from the agreed world's fair rate. It will be made to follow out the Atchiem's announced policy of meeting the reductions of competitors in territory east of the Missouri where it will burt them the most and the Atchison least. It makes the situation so bad that a compromise of some kind is almost certain to be made.

Townsend Waited for Gladstone With a Revolver.

HAD MURDER IN HIS HEART

Father Prevented the Committing of an Awtal Crime.

LONDON, April 28. The Pall Mall Gasette says that on the day the Irish home rule bill was passed to a second reading William Townsend, the man under arrest on the nominal charge of having discharged a revolver unlawfully in a public place, but really on suspicion of having intended to assassinate Mr. Gladstone, lay in wait for Mr. Gladstone's departure from his residence with the full purpose of murdering the premier. Townsend was armed a loaded revolver prepared to shoot Gladstone as soon as he came within reach. When Mr. Gladstone came out of his residence and the would be assassin saw him, his purpose weakened, for the peculiar reason that the venerable appearance of the premier reminded Townsend of his own father's appearance on his death bed. The pistol slipped from the fingers of the intended seein, and he rushed into the park and sank on a bench and burst into tears. It is asserted that Townsend made his way into the central hall of the house of commons on the same night and vigorously denounced the home rule

Many Lobstermen Perish Off the Coast of Prince Edward's Island.

of Prince Edward's Island.

Halifax, N. S., April 28.—A terrible storm swept over Prince Edward Island Wednesday. The schooner Anna Bell is a wreck at Merigomish, and the Rising Dawn is ashore at Cariboo. The wind blew forty miles an hour; it was bitterly cold, with heavy snow and hail. A large number of lobstermen were blown out to sea and undoubtedly perished. Four boats and their crews were blown out to sea from Canoe Cove and six boats and their crews from Black Point. Four men were picked up by a tug off Point Prim. Two men named Howatt and Johnson of Crapaud were blown off in their little cockleshell and had a miraculous escape from drowning. They were rescued after terrible suffering from exposures in an unconscious condition.

Another Big Fallure. Megacourses, April 28.—The Standard bank of Australia has suspended, pending the reconstruction of the institution. The authorized capital of the bank is £1,000,000 and the reserve fund and undivided profits amount to a total of £125,000. The Standard bank has had a high reputation and has numerous branches. The subscribed capital of the bank was £507,555, of which £252,576 was paid in. The troubles of the bank were caused by the withdrawn of deposits.

Present Hundred Homeless.

Practic, April 23.—A large portion of the town of Kreutzburg, a place of about 1,500 inhabitants near Deutschbrod, Bohemia, has been destroyed by fire. The confingration swept away 162 houses. Six persons perished in the flames, many others were injured and about 500 have lost their homes.
